

San Diego Herp Society has exciting programs for every situation.

Educational, entertaining and hands-on programs for Elementary classrooms. Teaching and demonstrating the world environment, bio-diversity, the importance of conservation and our responsibility in proper pet care.

(Sample handout)

And for middle school and high school students, the “cool factor” of reptile and amphibian demonstrations will gain their attention and respect for our flexible selection of more structured curricula:

ART - SCIENCE - EXPLORATION - PERSONAL RESPONSIBILITY

Supported by Multi-Media Presentations

(Lesson Plans, Suggested Quiz Items, and Handouts available)

Whatever your topic, our capable presenters can assist you.

And yes, we can also take reservations for spicing up your party and club function!

We are on the web at www.SDHerpSociety.org (education@sdherpsociety.org)
